

## Call for Papers

# 31th IFIP TC-11 SEC 2016 International Information Security and Privacy Conference

**Ghent, Belgium, May 30 - June 1, 2016**

**<http://ifipsec.org/2016/>**

The IFIP SEC conference is the flagship event of the International Federation for Information Processing (IFIP) Technical Committee 11 on Security and Privacy Protection in Information Processing Systems (TC-11, [www.ifiptc11.org](http://www.ifiptc11.org)). Previous SEC conferences were held in Hamburg (Germany) 2015, Marrakech (Morocco) 2014, Auckland (New Zealand) 2013, Heraklion (Greece) 2012, Lucerne (Switzerland) 2011, and Brisbane (Australia) 2010. We seek submissions from academia, industry, and government presenting novel research on all theoretical and practical aspects of security and privacy protection in ICT Systems. Topics of interest include, but are not limited to:

Access control and authentication	Information security education
Applied cryptography	Information security management
Audit and risk analysis	Information technology mis-use and the law
Big data security and privacy	Managing information security functions
Cloud security and privacy	Mobile security
Critical infrastructure protection	Multilateral security
Cyber-physical systems security	Network & distributed systems security
Data and applications security	Pervasive systems security
Digital forensics	Privacy protection and Privacy-by-design
Human aspects of security and privacy	Privacy enhancing technologies
Identity management	Surveillance and counter-surveillance
Trust management	

Submitted papers must be original, unpublished, and not submitted to another conference or journal for consideration. Accepted papers will be presented at the conference and included in the conference proceedings published in the IFIP AICT series by Springer Science and Business Media. All papers must be written in English. Submissions should be at most 14 pages long in total including references and appendices. Submissions should not be anonymised. PC members are not required to read the appendices, so the paper should be intelligible without them. Authors must follow the Springer LNCS formatting instructions. Each paper will receive at least three reviews. At least one author of each accepted paper must register by the early registration date indicated on the conference website and present the paper. After the conference, extended versions of selected papers will be considered for publication in the journal *Computers & Security*. Those papers will undergo at least one other review round.

For the travels (not stays or registrations fees) of PhD students of developing countries with an accepted paper in SEC 2016, SEC 2016 has applied for funding from the IFIP Developing Countries Support Committee. We hope, this will result in travel support for the best three papers from PhD students of developing countries.

General Chair:

Bart De Decker (KU Leuven)

Program Chairs:

Stefan Katzenbeisser (Technische Universität Darmstadt)  
Jaap-Henk Hoepman (Radboud University Nijmegen)

Organizing Chair:

Vincent Naessens (KU Leuven, campus Ghent)

Submissions due:

Dec 24, 2015

Notification of acceptance:

Feb 29, 2016

Deadline for final version:

Mar 13, 2016
