

Call for Papers

41st IFIP TC-11 International Conference on Information Security and Privacy Protection (SEC 2026)

09-11 June 2026

Pan Pacific Hotel, Perth, Australia

The IFIP SEC conference is the flagship event of the International Federation for Information Processing (IFIP) Technical Committee 11 on Security and Privacy Protection in Information Processing Systems (TC-11). We seek submissions from academia, industry, and government presenting novel research on all theoretical and practical aspects of security and privacy protection in ICT Systems. Practitioners and industry representatives are encouraged to submit papers.

Topics

We welcome contributions within, but not limited to, the following areas:

- Access control and authentication
- AI for cybersecurity
- Applied cryptography
- Audit and risk analysis
- Big data security and privacy
- Cloud security and privacy
- Critical infrastructure protection
- Cyber-physical systems security
- Data and applications security
- Digital forensics
- Human aspects of security and privacy
- Identity management
- Industry networks security
- Information security education
- Information security management
- Information technology misuse and the law
- IoT security
- Managing information security functions
- Mobile security
- Multilateral security
- Network & distributed systems security
- Pervasive systems security
- Privacy protection and Privacy-by-design
- Privacy-enhancing technologies
- Quantum computations and post-quantum cryptography
- Security and privacy in LLM's
- Side-channel attacks
- Surveillance and counter-surveillance
- Trust management

Submission Guidelines

Submitted papers must be original, unpublished, and not submitted to another conference or journal for consideration. Accepted papers must be presented at the conference in-person and will be included in the conference proceedings published in the [IFIP AICT](#) series by Springer.

All papers must be written in English. Submissions should be at most 14 pages long including references and appendices. Submissions should not be anonymised. PC members are not required to read the appendices, so the paper should be intelligible without them.

Each paper will receive at least three reviews. At least one author of each accepted paper must register by the author registration date indicated on the conference website and present the paper at the conference. For each accepted paper, at least one full registration is necessary.

After the conference, extended versions of selected papers will be considered for publication in the Elsevier journal [Computers & Security](#). Selected papers will undergo at least one further review round.

Further information on the conference and submission: <https://ifipsec.org/>

Awards

Computers & Security, published by Elsevier, is the sponsor for the Best Paper Award. The award will carry a prize to the value of \$1,000 (USD) and an extended version of the paper will be invited for publication in the journal.

The best student paper will receive the Yves Deswarte Best Student Paper Award. The award will carry a prize to the value of €1,000 (EUR).

Co-Located Events

Along with IFIP SEC 2026, it is anticipated that additional TC11 Working Groups will co-locate their workshops and meetings (WISE and WISM are already confirmed). Further details can be found on our website.

Important Dates (all AoE)

Submission due:	December 19, 2025
Notification of acceptance:	February 13, 2026
Submission of camera-ready papers: (including registration and payment)	March 13, 2026
Conference:	June 09 - 11, 2026

Committees

General Chair

Helge Janicke, Edith Cowan University, Australia

Programme Committee Co-Chairs

Lynn Fitcher, Nelson Mandela University, South Africa

Iqbal Sarker, Edith Cowan University, Australia

Kerry-Lynn Thomson, Nelson Mandela University, South Africa

Publicity Chair

Ahmad Mohsin, Edith Cowan University, Australia

Organising chair

Paul Haskell-Dowland, Edith Cowan University, Australia
